

THE MENU OF COLORS

A cocktail menu inspired by the captivating phenomenon of light refraction. When white light passes through a prism, it reveals a full spectrum of colors – the same colors that dance across our skies at twilight or the auroras. Each cocktail in this collection embodies a different hue born from that spectrum, reimagined through its connection to the ever-changing sky.

LUMINAIR X LYNN SPOOR

This menu is a bold expression of LuminAir's elevated approach to mixology, brought to life through a vibrant collaboration with contemporary artist Lynn Spoor. Known for her dynamic brushwork and powerful compositions, Lynn's signature energy flows through the painting. The featured painting above complements each of our signature cocktails. Take a closer look at the painting – located near the main bar & terrace entrance – and uncover the bursts of color embedded in each stroke.
